About Us

- AML is a marine transportation company providing barge service to and from Alaska, Hawaii and the Yukon Territory.
- AML is a part of the Lynden Family of Companies that provides transportation and logistics solutions around the world.

Our History

- 1906 – Lynden Transfer was established in Lynden, WA with two horses and an iron wheeled wagon
- 1954 – Lynden makes its first trip over the Alcan from Seattle to Alaska
- 1980 – Southeast Alaska Barge Service begins

Connecting Southeast Alaska

- We move all types of freight from the lower 48 to Southeast Alaska – from necessities like groceries and cars to oversized cranes and other bulky materials for diverse projects in the mining, and construction industries.
- Additionally, we transport export goods from Alaska to the lower 48, connecting our seafood and other industries to the rest of the world.
- Intra-Alaska barge transportation connects SE Communities to each other

Service Into Southeast Alaska

- We proudly offer twice weekly scheduled service from Seattle to Southeast Alaska year round
- We have never missed a sailing, even with delays due to weather and tides
- We kept Alaska moving during the Pandemic, providing essential goods to the region

Southeast Areas Serviced
